

How To Retrieve ABCO Form Reports From The Reporting Center, If The Report Is Too Large To View

If a user selects a specific ABCO Form in the Reporting Center and the form selected exceeds a specific size limit, when the report is processed, the user will receive the following error.

Two new options were added to the ABCO Forms reports Selection Criteria page to allow for the user to retrieve the required information (see picture below). These options were added to handle reports with extremely large volumes. They allow the size of the reports to be reduced to allow for download and/or printing.

Users can select the **States/Non-US Provinces** link to select ABCO Bill Notices by the State/Non-US Province contained in the mailing address.

Step 2: Review the Report Description.
