

On October 25, 2008, the following changes were implemented in CPAIS:

1. Several Predominate Usage Sub-Categories were added for Buildings. Laboratory Facilities, Animal Facilities, and Greenhouses are a few while the complete list can be viewed within CPAIS.
2. Several Predominate Usage Sub-Categories were added for Other Structures and Facilities. Above and Under Ground fuel tanks, Antennas, and Weather Stations are a few while the complete list can be viewed within CPAIS.
3. The Predominant Use Category of "Museum" was added to the valid list of values for Buildings and Other Structures.
4. The FRPP required field of "Sustainability" was added for FRPP reporting.
5. The process to report Disposed Assets for FRPP reporting was modified to only report assets disposed during the reporting fiscal year.
6. The forms were modified to properly return to the main menu when "BACK" button is pressed.
7. The form to link assets to an installation was corrected to allow use by all agencies instead of only Forest Service.
8. The valid list of values of "Utilization" for the TYPE field on the Agency Certification tab of the Agency Data Certification form was removed.
9. The valid list of values option of National Register Registered was corrected to read National Register Listed.
10. The forms were modified to allow for proper form navigation to the Land Acquisition tab of the Maintain Land form when the user presses the "Maintain Land" button on the Data Gaps and Lease form.
11. Several new summary fields were added to the FRPP Summary form including; No of Land, Total Acres, Total No of Assets, Total No of Buildings, Total No of Land, Total No of Structures, Total Urban Acres, Total Rural Acres, Total Acres, Total Building Sqft, Total No of Disposed Assets, Total No of Disposed Buildings, Total No of Disposed Land Assets, Total No of Disposed Structures, Total Value of Disposed Assets, Total Value of Non-Disposed Assets, and Total Annual Operating Cost.
