**Additional Information:**

Functional Area Master Data Elements				
Functional Area	Functional Area Text (16 Characters Max)	Valid From	Valid To	Expiration Date

**Functional Area:** The functional area is needed for Funds Management to meet legal requirements for reporting with functional aspects like manufacturing, sales, Research and development. You can use the functional area to represent the global targets and goals (such as public safety or city development), in particular the expenses of your organization.

**Functional Area Text:** Denotes a more detailed description of the master data element functional Area. **(Must be 16 characters or less)**

**Valid From:** Valid from denotes the date when the master data element will be valid from. The master data element is valid up to the "Valid From" date.

**Valid To:** Valid to denote the date when the master data element will no longer be considered valid. In the "Valid to" field you define the end of the analysis period.
