Date:

(Return the signed FRD to NFC two (2) weeks from date received.)

Please Read Before Signing:

GESD/CMB will provide the FRD to the Agency Representative (Requestor, APO, and/or the Agency Contact) to ensure software requirements for application modifications, reconfigurations, and redevelopments are properly understood by GESD's Staff, and to obtain preliminary customer approval of the continuation of work on the request. The signed FRD does not authorize funding for the request.

Requests to modify this FRD could delay assigning a Scheduled Release date or could result in changing an already proposed Scheduled Release date. Change requests should be made in concert with the NFC Project Owner so that requirements and the revised scope of the software change can be understood by both parties. Unilateral changes to the FRD are not acceptable.

Please note, continuation of work on this request does not begin until customer approval has been received, and the interagency agreement has been approved and signed.

When requesting a revised implementation date, please be sure to factor in adequate time for User Acceptance Testing (UAT), to ensure a timely implementation of your request.

Requests to revise the Scheduled Release date will be addressed on a project by project basis and current Scheduled Release considerations will be a factor when evaluating these requests.
