Project# 37483	Project Title: NFC Request Processing Interconnection Changes to Security Clearance Values	Date Prepared: 12/18/18
--------------------------	---------------------------------------------------------------------------------------------------------	-----------------------------------

Version 3.0

As of: 09/09/19

Scope:	To update the Security Clearance values in EmpowHR to match USA Staffing security clearance values changes.
Assumptions:	<p>Requests submitted to USA Staffing through the Request Processing Interconnection with values of "6" or "9" will no longer be accepted after EFFDT 01/14/2019.</p> <p>EmpowHR could potentially send historical positions that may contain a Security Clearances value of '6' or '9', resulting in a rejected error message from USA Staffing. It will be incumbent upon the user to correct the security clearance to a valid value in order to post onto USA Staffing.</p> <p>This Project is dependent on Mainframe's Project 37312-NFC Add 2 Data Elements to EHRI Reporting.</p>
