Pros	• Simpler when performing a few transactions • Easier to identify and correct errors	• Saves time when performing multiple transactions • Decreases the risk of manual error in TIPS
Cons	• Time consuming when performing more than a few transactions • Increases risk of manual error in TIPS	• Errors in Electronic Uploads must be resolved individually • Must adhere to a strict Electronic Upload format

Key Billing Dates

TIPS prepares a bill every month for each of a Tribal Employer's billing units:

- Account information changes must be submitted at least three business days before account closes
- The Billing Statement closes for the month on the **last calendar day of the month** at 11:59 PM Mountain Standard Time (MST)
- PADS processes billing information over the **first two business days of the month**
- PADS debits Tribal Employers' bank accounts on the **third business day of the month**
